

Extra Credit – Java Script Assignment

Description

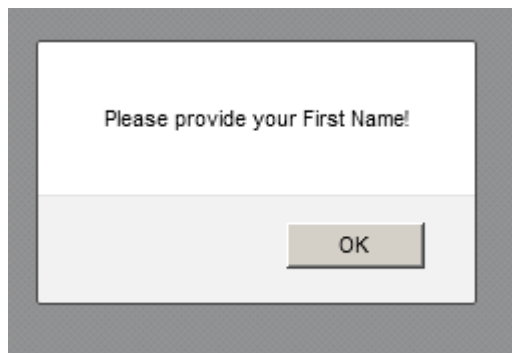

Create a Copy of Assignment-4. But this extra Credit assignment requires you to add field validations as mentioned in “**Extra Credit Requirements**” below.

Extra Credit requirements

Validation can be pure JavaScript, jQuery, or implemented with a JavaScript form validation library.

Requirements:

1. No Field can be empty.
2. Proper Email format.
3. Phone no must be like **+1-312-493-4021**
4. You should show some InLine HTML messages with fields or a simple pop-up message saying “Please provide some data for field or provide correct data in field”. Over all provide some meaning full message as shown below for example.

5. When a field has no data or wrong data highlight it with some color. (Probably Red).
- a. Highlight check boxes for **“Days Available”** Label when no check box is selected.
 - b. Highlight **Gender** radio button when no radio button is selected.
 - c. Screen-shot provided below shows an example of High light First Name when this field is empty.

My Info
